

**EASTEY'S PROFESSIONAL SERIES
PNEUMATIC L-BAR SEALER WITH SHRINK TUNNEL**

December 4, 2017, Brooklyn Park, MN – Eastey Enterprises., a leading manufacturer of L-sealers, sleeve wrappers, shrink tunnels and bundling equipment, introduces the Professional Series pneumatic sealer and shrink tunnel for packaging a variety of products.

The Professional Series pneumatic sealer is available with either a hot wire or hot knife seal head and features a powered takeaway mesh conveyor for easy product transport, and magnetic clamping and automatic cycle timing to ensure a proper seal. The unit's film cradle allows users the ability to make quick and easy film adjustment and changeovers, and the units pin perf provides air evacuation to each package to leave a tight shrink wrapped product.

Eastey's pneumatic L-bar seal head dimensions range from 20" to 50" in length and 16" to 100" wide and features pneumatic clamping. Eastey's sealers can be combined with Eastey's Professional Series shrink tunnel to provide a positive shrink of all products. Professional Series shrink tunnels features a solid state temperature control and four directional air flow with variable controlled air speed for positive shrink on all sides of the product. The tunnel conveyor can be ordered as stainless steel, live roller, dead roller or plastic belt. The chamber dimensions range from 20" to 70" in width, and 8" to 20" in height.

The Professional Series sealer and bundling tunnel are available now through Eastey Enterprises network of authorized distributors. Sales inquiries can be directed to Joshua Nelson, Eastey Enterprises, 7041 Boone Avenue, Brooklyn Park, MN 55428, 1-800-835-9344.

Eastey is now a part of Engage Technologies Corporation. Engage Technologies Corporation is the parent company of Squid Ink Manufacturing, Inc and Cogent Technologies, Inc. Squid Ink (www.squidink.com) manufactures industrial ink jet printing equipment and high quality inks for

a variety of industrial coding and marking applications, and Cogent Technologies (www.cogent-tech.com) manufactures infrared drying systems used to dry ink in the industrial and graphics industries.

Founded in 1991, the company is headquartered in Brooklyn Park, Minnesota with facilities in Spring Lake Park, Minnesota and Shanghai, China. For more information on the Engage Technologies family of companies, visit the individual websites listed above, or the Engage Technologies site at www.engagetechnologies.net.
