

THE SB-2 EX SIDE BELT CASE TAPER FROM EASTEY ENTERPRISES

April 20, 2016, Brooklyn Park, MN – Eastey Enterprises., a leading manufacturer of case tapers, L-sealers, sleeve wrappers, shrink tunnels and bundling equipment, introduces the SB-2 EX side belt case taper. The SB-2 EX is an affordable solution for sealing uniform light or heavy weight, narrow or small boxes.

Dual 1/4 hp drive motors, aggressive industrial strength drive belts, and roller tables make SB-2 EX a workhorse that will stand up to your toughest challenges. Each case taping machine is made from 12 gauge steel that will withstand even the most rugged applications. A powder coated exterior protects the machine from abusive conditions and guarantees years of use. Best of all, the SB-2EX is CE certified, so users can be confident it will consistently provide reliable, high quality case sealing.

SB-2EX offers fast and easy case changes with adjustable side rails and flexibility for boxes 5” long and greater. Adjustments can be made on the fly with easy hand tighten knobs and cranks which can be attached to either side of the machine. SB-2EX utilizes easy to load top and bottom tape cartridges and will seal boxes as narrow as 4.5” wide and as low as 4.5” tall.

SB-2EX is designed and built with the customer in mind. Top and bottom tape cartridges are interchangeable and designed for easy tape threading. These machines accept 2” wide pressure-sensitive tape as a standard, or can be converted in the field with 3” tape heads for wider case taping applications. Operators can learn to use Eastey’s SB-2EX case taping machine in minutes, avoiding breaks in production and downtime, saving your company money and increasing your ROI.

The SB-2 EX is available now through Eastey Enterprises network of authorized distributors. Sales inquiries can be directed to Joshua Nelson, Eastey Enterprises, 7041 Boone Avenue, Brooklyn Park, MN 55428, 1-800-835-9344.
