

EASTEY VS1620 VALUE SERIES COMBO UNIT

October 31, 2011, Brooklyn Park, MN – Eastey Enterprises., a leading manufacturer of L-sealers, sleeve wrappers, shrink tunnels and bundling equipment, introduces the VS1620 Combo Unit. The VS1620 is an affordable solution for manually sealing and shrinking a variety of products.

The VS1620 combines a rugged Eastey L-sealer and shrink tunnel on a common frame with one power source. This allows for quick setup, perfect alignment and consistent product sealing. A common base with casters makes this a very portable system for transportation within the plant. The unit is designed for a variety of applications with a seal size of 16" x 20" and will seal most polyolefin, polyethylene, and PVC shrink films.

With a low introductory list price, the VS1620 is an ideal solution for users who want to begin shrink packaging but thought their budget restricted them from doing so.

The VS1620 Combo Unit is available now through Eastey Enterprises network of authorized distributors. Sales inquiries can be directed to Joshua Nelson, Eastey Enterprises, 7041 Boone Avenue, Brooklyn Park, MN 55428, 1-800-835-9344.
